

July 20, 2006

Dear Suzuki Owner,

This notice is sent to you in accordance with the requirements of the Consumer Product Safety Act.

What is the reason for this notice?

In cooperation with the U.S. Consumer Product Safety Commission, Suzuki Motor Corporation is conducting a voluntary Safety Recall Inspection & Repair Program for certain 2006 model year LT-A400K6, LT-A400FK6 & LT-F400FK6 EIGER ATVs. According to our records, you are the owner of one of these affected ATVs.

What is the problem?

Suzuki Motor Corporation has determined that a small number of LT-A400K6, LT-A400FK6 & LT-F400FK6 EIGER ATVs may have been assembled with missing welds of the upper and lower front suspension arm mounting brackets on the left side of the ATV's frame. A mounting bracket that is not completely secured to the ATV's frame could break off during riding. If one or more mounting brackets break off, the rider could lose control of the ATV. Loss of control could possibly result in a crash causing severe personal injury or death.

⚠ WARNING

**DO NOT OPERATE YOUR AFFECTED
2006 LT-A400K6, LT-A400FK6 or LT-F400FK6 EIGER ATV**

To minimize the risk of injury or death, do not ride, or allow anyone else to ride, your ATV until this inspection & possible repair has been completed.

What is Suzuki doing to solve the problem?

Your dealer will inspect for missing welds on the suspension arm mounting brackets. This inspection does not require any removal of fenders or racks and will not change the appearance or operation of your ATV. This procedure is very simple and only takes a short amount of time to complete. There will be no charge to you for any recall service related parts or labor. If any of the suspension arm mounting brackets are missing welds, your dealer will have a certified welder re-weld the brackets.

What should you do?

Bring your ATV to your dealer for inspection and possible repair. To aid your dealer and Suzuki, make sure you are prepared for the recall service by taking the following steps:

- ✓ Contact your Suzuki dealer as soon as possible to set up an appointment for the recall service before you bring your ATV in for the inspection.
- ✓ Plan your personal schedule so you will not miss your recall service appointment.
- ✓ Clean your ATV thoroughly, so your dealer can perform the recall service quickly. This will aid in the inspection process.
- ✓ When you transport your ATV to the dealership, take care to protect it from damage and load it per the recommendations in the ATV's Owner's Manual.

What to do if you receive this letter in error?

This notice was mailed to you according to the most current information we have available. If you no longer own a 2006 model year LT-A400K6, LT-A400FK6 or LT-F400FK6 EIGER ATV or never owned one, no action on your part is needed. If you sold your ATV, please forward this information to the person to whom you sold your ATV.

Who to contact if you experience problems?

Your Suzuki dealer can provide you the fastest response to your questions or concerns about the suspension arm mounting bracket inspection and repair program. If you have any difficulty with this recall campaign you may contact the American Suzuki Customer Service Department for assistance using the direct Customer Service telephone line at 714-572-1490 during the hours of 8:30 am to 4:30 pm Pacific Time. Please have your vehicle identification number ready when calling. You may also leave a brief message at 800-444-5077 and a representative from the American Suzuki Customer Service Department will get in contact with you.

We deeply regret and apologize for any inconvenience this recall campaign causes you. We earnestly hope you understand that your safety, satisfaction and riding pleasure are priorities for Suzuki.

Sincerely,

American Suzuki Motor Corporation
