

GSX-R750Z 40TH ANNIVERSARY EDITION

Pearl Vigor Blue /
Pearl Tech White

OVERVIEW

The 2027 GSX-R750Z arrives sporting unique GSX-R-only graphics and special parts finished to commemorate the 40th anniversary of the GSX-R family. The appearance and performance foster a sense of connection with the history of the GSX-R and thereby instill greater pride in ownership.

The GSX-R750Z continues Suzuki's tradition of blending race-winning capability with impeccable street manners. The GSX-R750's compact yet torque-rich four-cylinder engine promptly reacts when the rider twists the throttle, while its supremely refined suspension and brakes provide precise, responsive handling.

The GSX-R750Z delivers a breathtaking combination of outstanding engine performance, crisp handling, compact size, and light weight. Like the original GSX-R750, the 2027 GSX-R750Z's secret is an unequalled pairing of 750cc performance with the lightweight, compact chassis of a 600cc supersport, complemented by technologically advanced suspension front and rear.

The GSX-R750Z is a modern representative of Suzuki's championship-winning heritage, still winning races* and delivering an exciting street riding experience riders will enjoy each time they twist the throttle.

KEY FEATURES

- This special model celebrates the GSX-R family's 40th anniversary, paying homage to famous GSX-R liveries from previous generations. Distinctive 40th anniversary logos harken back to the original GSX-R as the Pearl Vigor Blue and Pearl Tech White bodywork with contrasting stripes add an aggressive, sporty flair.
- Developed through years of successful racing, the GSX-R750Z's slim and lightweight bodywork presents an exciting, aerodynamic style that looks fantastic in motion. The front turn signals are integrated into the rearview mirrors while the trim tail section houses the rear signals.
- The GSX-R750Z's fuel-injected, 750cc, four-cylinder engine powers a balanced sportbike experience. This engine pulls strong off the bottom like a larger-displacement powerplant while building revs like a smaller mill – it is the best of both worlds.
- The proven SCAS back-torque-limiting clutch contributes to smooth downshifts and corner entry while the close-ratio six-speed transmission has Suzuki's legendary slick and precise shifting characteristics that pay dividends during each ride.
- The twin-spar aluminum frame effectively connects the steering head with the swingarm pivot portion of the chassis in a way that balances light weight and strength. The Showa® Big Piston Front Fork (BPF) and remote reservoir rear shock absorber are adjustable to help deliver

exceptional handling.

- Suzuki Drive Mode Selector (S-DMS) offers push-button selection of two modes to tune the engine's power delivery characteristics to the riding conditions and the rider's personal tastes. The compact, lightweight instrument cluster is track day-ready with a built-in lap timer/stopwatch and programmable shift light. The distinctive multi-reflector headlight with vertically stacked high- and low-beam halogen bulbs is centered between position lights.
- The passenger seat can be replaced with an optional color-matched solo tail cowl (available from your Suzuki dealer). See your dealer about the wide range of Suzuki Genuine Accessories that are available for the GSX-R. The GSX-R750Z has a 12-month unlimited mileage limited warranty, and longer coverage periods with other benefits are available through Suzuki Extended Protection (SEP).

** The GSX-R750 competes regularly in MotoAmerica's Supersport class.*

ENGINE

- The compact, 750cc, four-cylinder engine with a race-proven over-square bore/stroke ratio produces remarkably strong high rpm power delivery.
- The energy-efficient engine employs forged pistons, shot-peened connecting rods, chrome-nitride-coated upper compression and oil control rings, and pentagonal ventilation holes to help reduce frictional and mechanical losses.
- Lightweight and durable forged pistons were designed using the same Finite Element Method (FEM) and fatigue analysis technology used for the Suzuki MotoGP racing engines.
- Camshafts with aggressive valve-lift profiles use proven MotoGP racing engine technology – the second time this Suzuki technology has been applied to a street-going Suzuki (initial use was the GSX-R600).
- Lightweight titanium alloy valves are controlled by single-coil valve springs to help reduce valve-train mass and potential mechanical losses.
- Suzuki Dual Throttle Valve (SDTV) fuel injection uses eight fine-spray eight-hole injectors for improved fuel atomization.
- The four-into-one stainless steel exhaust system use a muffler with a titanium sleeve and is fitted with a Suzuki Exhaust Tuning (SET) valve that helps maximize torque and improve throttle response, especially in the low- to mid-rpm range.
- An Engine Control Module (ECM) provides state-of-the-art engine management and has enhanced settings to suit the intake and exhaust systems, helping improve fuel economy and throttle response.
- Advanced MotoGP-developed transistorized ignition control programming helps maintain more precise spark timing across a wide range of engine speeds.

DRIVELINE

- The close-ratio six-speed transmission features a tall first-gear ratio with shorter ratios for second, third, fourth, and sixth gears, making it easier for the rider to accelerate quickly from a stop or drive quickly out of a corner.
- The proven SCAS back-torque-limiting clutch contributes to smooth downshifts and corner entry.

CHASSIS

- The lightweight and compact twin-spar aluminum alloy frame is constructed of five cast sections to help achieve a chassis with an optimal balance of light weight and strength.
- The frame is mated with a cast aluminum swingarm to aid handling plus a multi-piece rear sub-frame ready to carry a passenger (or mount the Suzuki accessory solo seat cowl).
- A race-developed, lightweight Showa® Big Piston Front Fork (BPF) offers damping force adjustment to help deliver superb feedback and consistent performance.
- The single Showa® rear shock absorber features externally adjustable rebound and compression damping, spring preload adjustment, along with adjustable ride height.
- An electronically controlled steering damper provides light resistance at slower road speeds with greater damping force for higher speeds.
- Front brakes with fully floating 310mm discs are grasped by radial-mount, four-piston Brembo® Monobloc calipers.
- Blue three-spoke cast aluminum alloy wheels have special GSX-R 40th Anniversary rim decals and are shod with lightweight, high-grip front and rear Bridgestone Battlax® tires for sharp handling.

ELECTRONIC RIDER AIDS

- The Suzuki Drive Mode Selector (S-DMS) offers push-button selection of two racing-developed engine control maps to suit road or track conditions and personal tastes.

ELECTRICAL

- The compact, lightweight instrument cluster with a built-in lap timer/stopwatch and programmable engine rpm indicators alert the rider to certain shift points.
- The instrument cluster also includes an analog tachometer and LCD readouts that show speed, odometer, dual trip meters, reserve trip meter, clock, coolant temperature/oil pressure indicator, S-DMS, and gear position indicators.
- The GSX-R750Z's distinctive multi-reflector headlight with vertically stacked high- and low-beam halogen bulbs is centered between position lights on each side.
- The front turn signals are integrated into the forward-side of the rearview mirrors while the trim tail section houses the rear signals (so nothing protrudes from the motorcycle's tail).
- Bright, durable red LED taillight, with a clear lens.

BODY

- Finished in 40th Anniversary colors and graphics, the slim and lightweight bodywork presents an exciting, aerodynamic style that looks fantastic in motion.
- Three-way adjustable rider footpegs, an adjustable shift lever and brake pedal, and short fuel tank length help create a comfortable riding position that permits the rider movement required for spirited riding.
- The attention to rider comfort and confidence includes a carefully shaped seat with a high-grip cover.
- Celebrating the GSX-R's 40th Anniversary, the 2027 GSX-R750Z has a special Pearl Vigor Blue and Pearl Tech White paint scheme. Those traditional Suzuki colors combine striking graphics and certain parts finished to commemorate the 40th anniversary of the GSX-R family.

ADDITIONAL INFO

- A Suzuki logo on the fuel tank and a 3-D emblem on the fork's upper bracket denote the quality, sophistication, and performance legacy of the brand.
- An optional single-seat tail cowl can replace the passenger seat for an even more aggressive look or for use on solo rides or track days.
- A variety of Genuine Suzuki Accessories for GSX-R owners are available, including a wide selection of Suzuki logo apparel.
- This GSX-R is covered by Suzuki's 12-month, unlimited mileage limited warranty. Longer coverage periods with other benefits are available through Suzuki Extended Protection (SEP).
 - Please refer to the limited warranty policy and your Suzuki dealer for more information about coverage, limitations, and terms.
 - Your Suzuki dealer can also answer your questions about SEP coverage and terms.
- For more details, please visit www.suzukicycles.com.

SPECIFICATIONS

ENGINE

Engine:	750cc, 4-stroke, liquid-cooled, 4-cylinder, DOHC
Bore x Stroke:	70.0 mm x 48.7 mm (2.756 in. x 1.917 in.)
Compression Ratio:	12.5:1
Fuel System:	Fuel injection with SDTV
Starter:	Electric
Lubrication:	Wet sump

DRIVETRAIN

Clutch:	Wet multi-plate type
Transmission:	6-speed constant mesh
Final Drive:	Chain, RK®525R0Z5Y, 116 links

CHASSIS

Suspension, Front:	Inverted telescopic, coil spring, oil damped
Suspension, Rear:	Link type, single shock, coil spring, oil damped
Brake, Front:	Brembo®, 4-piston, twin disc
Brake, Rear:	Nissin®, 1-piston, single disc
Tire, Front:	120/70ZR17M/C (58W), tubeless
Tire, Rear:	180/55ZR17M/C (73W), tubeless
Fuel Tank Capacity:	17.0 L (4.5 US gal.) 16.0 L (4.2 US gal.) CA model

ELECTRICAL

Ignition:	Electronic ignition (transistorized)
Spark Plugs:	NGK® CR9EIA-9 or DENSO® IU27D
Headlight:	12V 65W (H9 high-beam) and 12V 55W (H7 low-beam)
Tail Light:	LED

DIMENSIONS

Overall Length:	2030 mm (79.9 in.)
Overall Width:	710 mm (28.0 in.)
Overall Height:	1135 mm (44.7 in.)
Wheelbase:	1390 mm (54.7 in.)
Ground Clearance:	130 mm (5.1 in.)
Seat Height:	810 mm (31.9 in.)
Curb Weight:	190 kg (419 lb.)

WARRANTY

Warranty:	12-month unlimited mileage limited warranty <i>Longer coverage periods with other benefits are available through Suzuki Extended Protection (SEP).</i>
